

Project name : **TRINITY METHODIST CHURCH - ELLESMERE PORT**

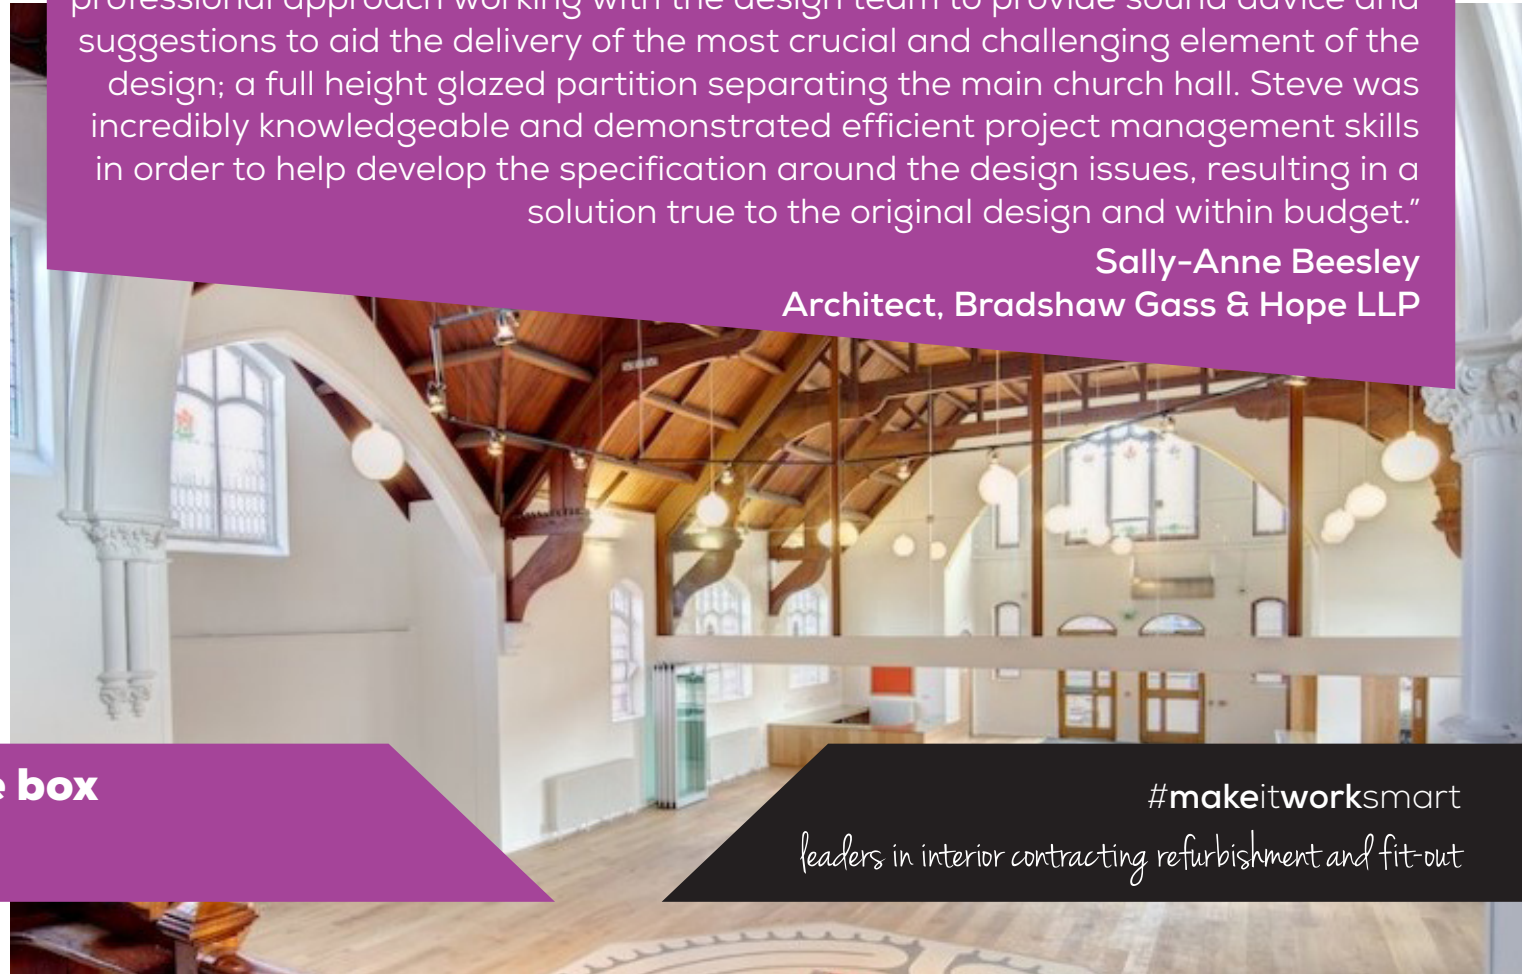

Community Benefit' 2013 Award from RICS North West. "Steve provided a very professional approach working with the design team to provide sound advice and suggestions to aid the delivery of the most crucial and challenging element of the design; a full height glazed partition separating the main church hall. Steve was incredibly knowledgeable and demonstrated efficient project management skills in order to help develop the specification around the design issues, resulting in a solution true to the original design and within budget."
